Vision

• Achieving excellence and leadership and keeping pace with developments in the field of interest in building the personality of club members in an integrated manner in all aspects, developing their skills and attitudes, and investing their time in a positive and fruitful manner.

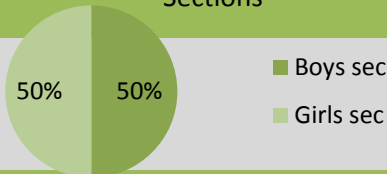

Mission

• Building students' personalities, developing their skills, and investing their time in a positive and fruitful way, in addition to providing distinguished activities for students and members, in a stimulating environment that contributes to improving the college's outcomes and enhancing its competitive capabilities in the labor market.

Goals

- Coordinating with the Deanship of Student Affairs in everything related to student activities
- Developing a plan for all student activities, artistic, sports, cultural, scientific and recreational, to be implemented inside or outside the college
- Encouraging, sponsoring and implementing student initiatives in coordination with the relevant authorities
- Evaluate all student activities and provide appropriate suggestions to improve them

Implementation Rate of Activities Between the Sections

Number of events and activities in 1445

40
